Dear Friend,

What does the Quarryville Library Center mean to you? The library plays a different part in each of our lives, and we want to hear your story.

- For the busy parent, it offers a moment in their week where they can enjoy seeing their child engaged, learning, and happy in one of our programs while they take a much-needed break to socialize with other parents.
- For the budget-stretched family, it provides free entertainment such as family movie nights, movie rentals, and passes to local museums.
- For the homeschooler, it offers many free resources, both in book format and online.
- For job seekers and people looking to improve their computer skills, it is a place for one-on-one assistance with technology, as well as the chance to use the computer knowing help is just a few steps away.
- To all of us, the Quarryville Library Center, YOUR library, is the heart of the community.

This year is already exceeding the expectations of previous years in terms of program participation, passport applications, and patron visits and use, and many wonderful things are being planned for the coming summer and autumn! All of this is only possible through your support. Will you consider a special gift to help your library keep going strong? By helping your library, you are helping your community!

Thank you!

Susan Eshleman, Director, Chris Waite, Board President,
and the Library Board of Trustees
